

SculptaCast™

Modeling & Sculpture Waxes

Product Type and Description: SculptaClay

PZ-A 3023H Terracotta – Red Soft

SculptaCast™ SculptaClay: a revolutionary new sculpture medium that redefines the art of molding and shaping. Crafted to inspire both seasoned artists and budding sculptors alike, SculptaClay boasts a unique blend of softness, pliability, and a slight tackiness, making it incredibly easy to work with. Whether you're crafting intricate details or sculpting bold forms, SculptaClay offers exceptional versatility and control, allowing your creativity to flourish without limitations. Its lightly tacky texture ensures that your creations stay securely in place during the sculpting process yet remains effortlessly moldable for seamless adjustments. With SculptaClay, the possibilities are endless – from lifelike figurines to abstract masterpieces, unleash your imagination and bring your visions to life with this innovative sculpture medium.

Key Benefits

- Excellent for hand forming or modelling.
- Readily adheres to itself and other waxes.
- Carves similar to a soft clay.
- Designed with casting in mind, offering an ultra-low ash content.

By warming the wax with your hands, you can achieve a highly soft, and malleable substance. Once you are ready for finer details, allow the wax to become more rigid by letting it sit for a minute.

Physical Properties

Testing Procedure/Method

Softening Point, Ring and Ball @4°F/min (IPCS 004)

Drop Melt Point @4°F/min (IPCS 005)

Flow Test >50% (IPCS 007)

Needle Penetration 100 g @77°F (IPCS 006)

Ash Content (IPCS 002)

Color (IPCS 020)

Typical Properties

135 +/-6°F

137 +/-6°F

28 +/-4°C
